QUALITY FOR LIFE

MOBILE PAINT MIST EXTRACTION

AL-KO COLOUR JET

For clean and safe
painting workstations.

MADE IN GERMANY

alko-extractiontechnology.com

PRODUCT FEATURES

AL-KO COLOUR JET

The devices of the COLOUR JET series are optimally designed for the extraction of paint mists and solvents at wet painting workstations.

Functionality:

- Front baffle ensures capture at the bottom and at the side inlets
- Baffle enables even air distribution over the filter and protects the filter medium
- Colour pigments are separated via a large-surface spin-on- filter
- Cleaned exhaust air is routed outside through a pipe or hose

Applications:

- Wet painting workstations in craft, industry and workshops
- Painting workstations with ATEX Zone 2

YOUR ADVANTAGES

Clean painting workstations

due to high extraction performance and effective filter system.

Flexible use

due to mobile design.

Individually adaptable

with extensive accessories.

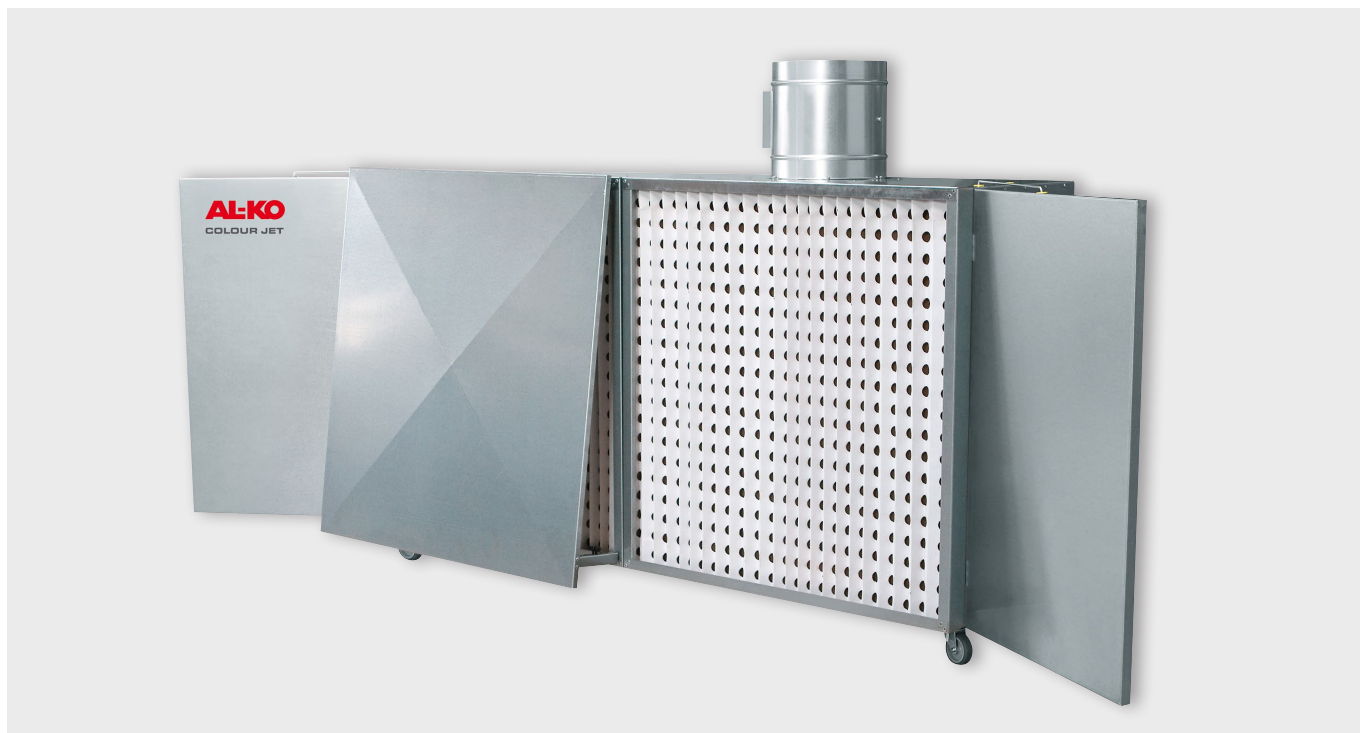

Cost-effective and powerful

replaces a closed paint booth in many cases

Safety through certification

for use in potentially explosive environments (ATEX Zone 2).

AL-KO COLOUR JET

Type	Type 1	Type 2	Type 3	Type 4
Article Number	195 627 01	195 628 01	195 629 01	195 752 01
Motor power	1.5 kW	2.1 kW	2.1 kW	2.2 kW
Air volume	4,600 m³/h	3,000/6,800 m³/h	3,000/6,800 m³/h	6,800 m³/h
Vacuum at nominal flow rate	500 Pa	400/500 Pa	400/500 Pa	500 Pa
Filter area	1 m²	1 m²	2 m²	2 m²
Dimensions (L/W/H) in mm	1,012 × 1,405 × 912	1,012 × 1,405 × 943	1,912 × 1,405 × 943	1,912 × 1,405 × 943

Optional Accessories:

- Various filter materials suitable for your application
- Additional pre-filter for longer service life of the main filter
- Starter set with hose, connection clamps, and flap for wall installation
- Energy-saving stands for efficient control of the device
- Suitable AL-KO supply air units to balance the air supply

AL-KO AIRTECH

AL-KO Airtech is the specialist in the manufacturing and distribution of extraction and ventilation systems. Airtech includes **AL-KO Extraction Technology** and **AL-KO Air Technology**. These business units develop and produce customized air handling systems as well as a wide range of industrial extraction systems for various applications. What began in 1931 as a small village forge is now a global brand. Then and now, the brand promise "QUALITY FOR LIFE" stands for unique product and service quality.

AL-KO EXTRACTION TECHNOLOGY

- ✔ **Over 35 years of experience** – Competence & innovation in Extraction Technology
- ✔ **Tested & certified** – highest safety and quality
- ✔ **5,000+ systems per year** – proven AL-KO quality in use
- ✔ **Diverse solutions** – Standard devices & customized systems
- ✔ **Everything from a single source** – Planning, digital tools, control & service
